POLISH PRODUCT

WARRANTY 3 years

PRODUCTS AND APPLICATIONS

The principal types are ball bearings, tapered roller bearings and cylindrical roller bearings.

Bearings intended for special applications are a separate category. Altogether, our assortment includes over 1500 types of bearing numbers. Most of our production, nearly 60%, goes to the automotive industry. Our bearings find also application in metallurgy, electric motors, forklifts and other industries.

BALL BEARINGS

(Ø O.D. 32÷1230mm)

-single row radial bearing
-double and multi-row bearing
-single and double row angular contact bearing
-thrust bearing

TAPERED ROLLER BEARINGS

(Ø O.D. 35÷1130mm)

-single row radial bearing
-double and multi-row bearing
-thrust bearing

CYLINDRICAL ROLLER BEARINGS

(Ø O.D. 30,52÷1770 mm)

-single row radial bearing
-double and multi-row bearing
-thrust bearing

SPHERICAL ROLLER BEARINGS

(Ø O.D. 130÷630 mm)

SPECIAL BEARINGS

OTHER PRODUCTS

-grindlers spindles
-Forging and pressing elements
-machines and machines components

AGRICULTURAL BEARINGS

A significant part of FŁT- Kraśnik S.A. production are bearings used in agricultural industry.

Bearings for balers

PBF marking code	main dimentions d / D / B/C	basic load rating kN dynamic / static
CBK-320	20/52/59/30,06	25 / 21,7
114 992 2RSR	35/72/17/17	16 / 10,3
K 6207 2RSR	35/72/17/17	19,7 / 15,3
K 6208 2RSR	40/80/18/18	22,4 / 17,9
K 6308 2RSR	40/90/23/23	40,7 / 23,9
K 6209 2RSR	45/85/19/19	25,2 / 20,5
K 6309 2RSR	45/100/25/25	40,6 / 31,7

We offer:

- spherical cup bearings ”K” in front of marking code e.g. K 6310-2RS
- tapered bore bearings “K” after marking code e.g. 6310 K-2RS
- spherical bearing with tapered bore “K” before and after marking code e.g. K 6310 K-2RS

These bearings are often employed in agricultural machines (Claas, John Deer and others) and can be used as a replacement of others brand.

If requested we can realize tapered bore and spherical cup on all of our ball bearings assortment.
